All music composed by Srdjan Ivanovic
except Tartaros (Federico Casagrande),
Ouréa (Andreas Polyzogopoulos), Mnémosyné (Mihail Ivanov).

Cosmogonie was conceived in early 2025, when I was planning a new repertoire for Blazin' Quartet. In writing a longer form the need for a unifying theme emerged and at a moment in time when division between people is becoming increasingly apparent, I could not find anything more universal and timeless than the story of the universe itself.

Thank-you-notes

Andreas, Federico, and Misho, thank you for giving all your musical input into this album.

Thanks to George Karyotis for the great energy and amazing sound in the studio, and to Mathieu Pion for the beautiful mix.

Thanks to Gabriel Tsangaris of Gabriel Drums for his superb custom drum sets as well as Istanbul Agop Cymbals that I'm fortunate to endorse.

My gratitude goes to the whole team that has contributed to the making of this album:

Angeliki Spyridaki, for guiding and managing this release; Valérie Suder, who supported the release in numerous ways from behind the scenes as well as Greg Florival of Teamzic.

Thanks to Marinos Tranoudakis for always being available to help and my whole Greek 'friend family' for still making me feel at home there.

Many thanks to Joël Veiga and Yucca Rousset, the président and treasurer of Rue Des Balkans.

Special thanks to Catherine Ivanovic for believing in and supporting me, and for being a hardcore Blazin' Quartet fan.

Final thanks to all of you who listen, interact, and give meaning to this music.
